From : Secretary for Education

Allocation System

Ref. : EDB(SPA) PPR 1/11/1

Date : 21 August 2008

**Secondary School Places Allocation (SSPA) System
Netting Arrangements**

Summary

This circular memorandum serves to invite all primary and secondary schools participating in the SSPA System to submit comments and suggestions on the netting arrangements for the SSPA 2007/2009.

Background

2. Under the SSPA system, the whole territory is divided into 18 school nets in line with the District Administration boundaries. Each school net basically comprises all the participating primary and secondary schools located in the district, as well as a number of secondary schools in other districts to meet the needs of the net. The secondary schools and school places from other districts may vary from year to year according to the demand and supply situation.

Details

3. To maximize the number of primary 6 students to be allocated in their own school net and reduce unnecessary cross-net schooling, allocation is based on the vicinity principle at the Central Allocation stage. Netting arrangements for the SSPA are also made basing upon the demand and supply of Secondary One places in each district, school location, population movements etc., and in consideration of comments and suggestions received.

4. The netting arrangements for the SSPA 2006/2008 were made in April 2008, and documents providing relevant information are attached for your reference:

- (i) List of School Nets;
 - (ii) Sketch Map of School Nets;
 - (iii) Netting Arrangements - Primary Schools; and
